Languages

Polish - native

English - B2

Personal projects

Data parser (Node.js + SQLite)

Portfolio website

Snake game (JavaScript)

Simple to do list

Interests

Movies - I try to watch every movie that's considered good, no matter the genre. I'd consider becoming a critic if my writing was any better.

Computer games - I try to be competitive in multiplayer games like Dota2 and Counter Strike. On weekends I either try my best in amateur tournaments or play with friends for fun.
